DETAILED ACTION

Election/Restrictions

1. Claims 1-3 and 7-20 allowable. The restriction requirement, as set forth in the Office action mailed on July 8, 2008, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 8-10, directed to a module no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Allowable Subject Matter

1. Claims 1-3 and 7-20 allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art of record, taken alone or in combination, fails to teach or disclose in light of the specifications, **claim 1)** a module comprising a plastic member for mounting to the first side of the substrate, the

Art Unit: 2871

plastic member comprising a thermoplastic heat stake having a barbed tip selected such that when reformed using heat, the thermoplastic material of the barbed tip forms a lump that is confined inside the recess of the substrate; **claim 2)** a method of forming a surface mount module, the method comprising heating a barbed tip of the thermoplastic heat stake whereby the thermoplastic material of the barbed tip is melted and confined inside the recess of the substrate; and **claim 13)** a module comprising a thermoplastic heat stake having a barbed tip with a material volume that is selected for deforming under heat to produce a lump that is located, at least in part inside the recess and is operative to securing the component to the substrate

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
